Accordance with Government Auditing Standards**

INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors
County of Ontario
Canandaigua, New York

Report on Compliance for Each Major State Transportation Assistance Program

We have audited Ontario County, Canandaigua, New York's compliance with the types of compliance requirements described in the Preliminary Part 43 of the New York State Codification of Rules and Regulations (NYCRR) that have a direct and material effect on each state transportation assistance program tested for the year ended December 31, 2019. The County's major programs are identified in the summary of audit results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state transportation programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Ontario County, Canandaigua, New York's major state transportation assistance programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States; and Preliminary Part 43 of the NYCRR. Those standards and Preliminary Part 43 of the NYCRR require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state transportation assistance program occurred. An audit includes examining, on a test basis, evidence about Ontario County, Canandaigua, New York's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state transportation assistance program. However our audit does not provide a legal determination of Ontario County, Canandaigua, New York's compliance.

Opinion on Each Major State Transportation Assistance Program

In our opinion, Ontario County, Canandaigua, New York complied in all material respects with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state transportation assistance programs for the year ended December 31, 2019.

Report on Internal Control over Compliance

The management of Ontario County, Canandaigua, New York is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Ontario County, Canandaigua, New York's internal control over compliance with requirements that could have a direct and material effect on each major state transportation assistance program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state transportation assistance program and to test and report on the internal control over compliance in accordance with Preliminary Part 43 of the NYCRR, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Ontario County, Canandaigua, New York's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a state transportation assistance program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state transportation assistance program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with the types of compliance requirements of a state transportation assistance program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Preliminary Part 43 of the NYCRR. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of State Transportation Assistance Expended

We have audited the financial statements of Ontario County, Canandaigua, New York as of December 31, 2019, and have issued our report thereon dated June 2, 2020 which contained an unmodified opinion of those financial statements. We did not audit the financial statements of the Finger Lakes Community College. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to amounts included for the Finger Lakes Community College is based solely on the report of the other auditors. Our audit was conducted for the purpose of forming an opinion on Ontario County, Canandaigua, New York's financial statements as a whole. The accompanying schedule of state transportation assistance expended is presented for purposes of additional analysis as required by Preliminary Part 43 of the NYCRR and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subject to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of State Transportation Assistance Expended is fairly stated, in all material respects, in relation to the financial statements taken as a whole.
