## **APPENDIX B**

**PAGE INTENTIONALLY LEFT BLANK**

**APPENDIX B**

**CALCULATION OF ASPHALT PRICE ADJUSTMENTS**

**ALL LIQUID BITUMINOUS MATERIALS EXCEPT ASTM D6690 TYPE II JOINT AND CRACK SEALANT**

1. Asphalt price adjustments allowed will be based on the **October 2020** average of the F.O.B. terminal price per ton of unmodified PG 64S-22 binder without anti-stripping agent (base average F.O.B. terminal price). The new monthly average terminal price will be determined by the New York State Department of Transportation based on prices of pre-approved primary sources of performance graded binder in accordance with the New York State Department of Transportation Standard Specification.

**The October 2020 average is \$471.00 per ton (Base Average F.O.B. Terminal Price).**

2. The new average F.O.B. terminal price will be determined based on the above F.O.B. terminal prices posted on the 20th of each month, hereafter known as the "Adjustment Date", during the contract period starting with **May 20, 2021**. However, asphalt price adjustments, in accordance with the formula below, will be effective for deliveries made on and after the first of the month following the adjustment date, (starting with **June 1, 2021**).
3. The unit prices of liquid bituminous materials purchased from any award based on this specification will be subject to adjustment based on the following formula:

$$\text{Price Adjustment Per Gallon} = \left( \frac{\text{New Monthly Average Terminal Price} - \text{Base Average F.O.B. Terminal}}{235} \right) \times \text{Total Allowable Petroleum \%}$$

Positive Price Adjustment number shall be added to original per gallon Price.  
Negative Price Adjustment number shall be subtracted from original per gallon Price.

**New Monthly Average F.O.B. Terminal Price -**

The average F.O.B. terminal price for unmodified PG 64S-22 binder without anti-stripping agent as determined by the New York State Department of Transportation per New York State Department of Transportation Standard Specification.

**Base Average F.O.B. Terminal Price -**

The average F.O.B. terminal price of unmodified PG 64S-22 binder without anti-stripping agent as determined by the New York State Department of Transportation as of **October 1, 2020**.

**Total Allowable Petroleum**

The percentage of total allowable petroleum for each item is as follows:

<b>Table A1 – Liquid Bituminous Materials – Total Allowable Petroleum Percentage</b>

The average monthly posted prices for asphalt cement can be found at the following URL:

<https://www.dot.ny.gov/main/business-center/contractors/construction-division/fuel-asphalt-steel-price-adjustments>

4. Price adjustments allowed by this contract shall be calculated and applied to the original prices. There will not be price adjustments unless the change amounts to more than **\$0.010** per gallon from the original prices. In these instances prices will revert back to the original prices.

Asphalt Price Adjustments will not be allowed for materials which do not have an asphalt cement base.

#### **Asphalt Price Adjustment: Example**

This example is for illustration purposes only. Actual Base Average Price, etc., may vary:

Liquid Bituminous Material Price Adjustment Calculation:

Material Designation 702-3101P RS-2p

Total Allowable Petroleum = 65.7%

Base Avg. Price = **\$421.000**

New Avg. Price = **\$557.000**

$$\text{Price Adjustment} = \frac{557.000 - 421.000}{235} \times 0.657 = + 0.380 \text{ per gallon}$$

5. All Asphalt Price Adjustments will be computed to three decimal places.

### CALCULATION OF ASPHALT PRICE ADJUSTMENTS

#### **CLEANING AND SEALING CRACKS AND JOINTS IN BITUMINOUS PAVEMENTS**

1. Asphalt price adjustments allowed will be based on the **November 2021** average of the F.O.B. terminal price per ton of unmodified PG 64S-22 binder without anti-stripping agent (base average F.O.B. terminal price). The new monthly average terminal price will be determined by the New York State Department of Transportation based on prices of pre-approved primary sources of performance graded binder in accordance with the New York State Department of Transportation Standard Specification.

**The November 2021 average is \$570.000 (Base Average F.O.B. Terminal Price).**

2. The new average F.O.B. terminal price will be determined based on the above F.O.B. terminal prices posted on the 20th of each month, hereafter known as the "Adjustment Date", during the contract period starting with **January 1, 2022**. However, asphalt price adjustments, in accordance with the formula below, will be effective for deliveries made on and after the first of the month following the adjustment date (starting with **February 1, 2022**).
3. The unit prices of bituminous materials purchased from any award based on this specification will be subject to adjustment based on the following formula:

$$\begin{array}{l} \text{Price} \\ \text{Adjustment} \\ \text{Per Gallon} \end{array} = \frac{\left( \begin{array}{l} \text{New Monthly Average} \\ \text{Terminal Price} \end{array} - \frac{\begin{array}{l} \text{Base Average F.O.B.} \\ \text{Terminal Price} \end{array}}{235} \right) \times \begin{array}{l} \text{Total} \\ \text{Allowable} \\ \text{Petroleum \%} \end{array}}{235}$$

Positive Price Adjustment number shall be added to original per gallon Price.  
Negative Price Adjustment number shall be subtracted from original per gallon Price.

#### **New Monthly Average F.O.B. Terminal Price**

The average F.O.B. terminal price for unmodified PG 64S-22 binder without anti-stripping agent is as determined by the New York State Department of Transportation per New York State Department of Transportation Standard Specification.

#### **Base Average F.O.B. Terminal Price**

The average F.O.B. terminal price of unmodified PG 64S-22 binder without anti-stripping agent is as determined by the New York State Department of Transportation as of **November 1, 2021**.

#### **Total Allowable Petroleum**

The percentage of total allowable petroleum for each item is as follows:

<b>Table B-1 – Liquid Bituminous Materials – Total Allowable Petroleum Percentage</b>				
<b><u>Material Designation</u></b>	<b><u>Grade</u></b>	<b><u>Asphalt %</u></b>	<b><u>Petroleum Allowance %</u></b>	<b><u>Total Allowable Petroleum %</u></b>

Price adjustments allowed by this contract shall be calculated and applied to the original prices. There will not be price adjustments unless the change amounts to more than **\$0.010** per gallon from the original prices. In these instances prices will revert back to the original prices.

Asphalt Price Adjustments will not be allowed for materials which do not have an asphalt cement base.

**Asphalt Price Adjustment: Example**

This example is for illustration purposes only. Actual Base Average Price, etc., may vary:

ASTM D6690 Type II  
 Base Average Price = \$570.000  
 New Average Price = \$557.000  
 % Total Allowable Petroleum = 56.2%

$$\text{Price Adjustment} = \frac{557.000 - 570.000}{235} \times 0.562 = -\$0.031 \text{ per gallon}$$

Positive Price Adjustment number shall be added to original per gallon price.  
 Negative Price Adjustment number shall be subtracted from original per gallon price.

- Asphalt Price Adjustments allowed by this contract shall be calculated and applied to the original prices. There will not be Asphalt Price Adjustments unless the change amounts to more than \$0.010 per gallon from the original price. In these instances, prices will revert back to the original prices.

### CALCULATION OF ASPHALT PRICE ADJUSTMENTS

#### **BITUMINOUS CONCRETE PAVEMENT MATERIALS**

1. Asphalt price adjustments allowed will be based on the **October 2020** average of the F.O.B. terminal price per ton of unmodified PG 64S-22 binder without anti-stripping agent (base average F.O.B. terminal price). The new monthly average terminal price will be determined by the New York State Department of Transportation based on prices of pre-approved primary sources of performance graded binder in accordance with the New York State Department of Transportation Standard Specification.

**The October 2020 average is \$471.000 (Base Average F.O.B. Terminal Price).**

2. The new average F.O.B. terminal price will be determined based on the above F.O.B. terminal prices posted on the 20th of each month, hereafter known as the "Adjustment Date", during the contract period starting with **May 20, 2021**. However, asphalt price adjustments, in accordance with the formula below, will be effective for deliveries made on and after the first of the month following the adjustment date, (starting with **June 1, 2021**).
3. The unit prices of liquid bituminous materials purchased from any award based on this specification will be subject to adjustment based on the following formula:

$$\text{Price Adjustment Per Ton} = \left( \frac{\text{New Monthly Average F.O.B. Terminal Price}}{\text{Base Average F.O.B. Terminal Price}} - 1 \right) \times \text{Total Allowable Petroleum \%}$$

Positive Price Adjustment number shall be added to original per gallon Price.

Negative Price Adjustment number shall be subtracted from original per gallon Price.

#### **New Monthly Average F.O.B. Terminal Price -**

The average F.O.B. terminal price for unmodified PG 64S-22 binder without anti-stripping agent as determined by the New York State Department of Transportation per New York State Department of Transportation Standard Specification.

#### **Base Average F.O.B. Terminal Price -**

The average F.O.B. terminal price of unmodified PG 64S-22 binder without anti-stripping agent as determined by the New York State Department of Transportation as of **October 1, 2020**.

#### **Total Allowable Petroleum**

The percentage of total allowable petroleum for each item is as follows:
